MICROSOFT VIRTUALIZATION AND MANAGEMENT SOLUTIONS:

Do you have different operating systems in your data center? Choosing the right virtual server management solution for your business is too important to leave to chance!

Join J4 Systems and Microsoft to learn how Microsoft's virtual server management solutions help maximize the value of your physical servers, streamline processes and save money.

Attend this event to learn how Microsoft's virtual server management solutions can:

Help Optimize IT Productivity

- Manage your heterogeneous IT infrastructure through a single management console.

Help Reduce IT Costs

- Consolidate server resources to reduce complexity and improve overall server utilization.

Help Prevent Downtime

- Keep your IT up and running with business continuity features and self-managing systems.
